

UPDATE ON MODERN PERIODONTAL MANAGEMENT

4 HRS
CPD

During this morning I will share the current understanding of periodontal disease and the most evidence based management systems for chronic periodontitis. A review of the 2017 Classification of Periodontal Disease will be explored. A morning of education on non surgical therapies which can be provided in all general practice settings and for those cases that require specialised management, the surgical and regenerative options available to your patients.

UPDATE ON MODERN PERIODONTAL MANAGEMENT

4 HRS
CPD

Previously presented as Periodontology 101

DATE	VENUE	FEES
Saturday 8th June 2024 9:00am - 1:00pm	Dental Artistry Academy Training and Education Centre Level 1/38 Broadway, Newmarket, Auckland	\$99 (gst inc)

Periodontitis is a chronic multifactorial inflammatory disease associated with dysbiotic dental biofilms. Periodontitis is a major public health problem due to its high prevalence and negative effect on chewing function and aesthetics. It is estimated half of the worlds population have periodontitis with approximately 10% of the population exhibiting a severe form.

During this morning I would like to share with you the current understanding of periodontal disease and the most evidence based management systems for chronic periodontitis. A review of the 2017 Classification of Periodontal Disease will be explored. A morning of education on non surgical therapies which can be provided in all general practice settings and for those cases that require specialised management, the surgical and regenerative options available to your patients.

Learning Outcomes:

- Explore and develop a deep understanding for the 2017 Periodontal Disease Classification.
- Evidence based management of periodontal disease including assessment, treatment, and maintenance in general practice.
- Introduction to Minimally Invasive Non-Surgical Therapies (MINST).
- Develop an understanding of surgical management of periodontal cases including respective surgeries and regenerative therapies.

DR SHENG ZHANG

BDS (Adel), BOH (Syd), MDS Periodontics/Implantology (UJI), GradDip Orthodontics (ICU), FRACDS, FIDIA, FIADFE

Dental Artistry Practice Principal

Fellow of Royal Australasian College of Dental Surgeons, International Dental Implant Association and International Academy of Dentofacial Esthetics. Dr Sheng Zhang is a general dentist with a special interest and practice limited to periodontics and implantology. He has studied extensively around the world learning from the leaders in the field. Dr Sheng is a published author, and his thesis was on Albumin Concentrated Growth Factors (Alb-CGF) in the sinus lift procedure. He has developed novel techniques with the use of autologous blood concentrates as an adjunct to guided bone regeneration.
